REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Atkinson:

It is with pleasure that I present my annual report as Superintendent of your schools:

The Statistical Report is for the school year ending June 30, 1938. This report is followed by the reports of the Music Supervisor and the School Nurse.

There has been one change in our teaching staff since my last report. Miss Barbara Colcord is succeeding Miss Ruth Neville at the Center Primary School. Our teachers are encouraged to take courses in education either during the summer or during the school year. At present Miss Hevey and Mrs. Olsen are taking a course in Remedial Reading given by Dr. Durrell of Boston University, at Haverhill. By means of this work our teachers are keeping abreast of modern thought and practice in school matters.

The enrollment in the elementary schools for the year covered by this report was sixty-nine, showing a decrease of three since the year previous. The enrollment at the Academy was eighteen, four less than during the previous year. The school attendance averaged 95.02% of the membership, as compared with the state average of 95.13%.

There were seven boys and girls graduated from the eighth grade last June, and all but one of them have entered a high school this year. The following list shows the September enrollment of Atkinson pupils in High Schools:

Atkinson Academy	18
Woodbury High School	3

Total Atkinson pupils enrolled in High Schools 21

A 16mm. Silent Motion Picture Machine was purchased by the towns of our Supervisory Union last spring for use in Visual Education in the Schools. Films that deal with and supplement the curriculum of the school are shown. For the elementary school there are available without cost, except transportation, films dealing with health, safety, geography, history and home making. Films have been shown on Alaska, Brazil, Phillipine Islands, Denmark, Siberia, and the Sahara Desert; as well as on Wheat, Corn, Oranges, the Life of Lincoln, and of Washington. Motion Pictures and Radio are rapidly taking a place in the school room. Non-readers often learn by this means as rapidly as good readers. Teachers find that a motion picture in history or geography creates a desire to learn more about the subject. Experimentors have found that children learn from Motion Pictures three or four times as rapidly as by reading and retain it longer.

The Metropolitan Achievement Tests are given each year in grades 1-8 inclusive. The Otis Mental Ability Tests are given in grade four. These tests help in checking school progress. They also show the need, when it exists, of additional drill in some subjects. Our tests show that good progress is being made. The teachers taking Dr. Durrell's Course in Remedial Reading will receive assistance in solving reading problems.

A Curriculum in Safety Education has been worked out by a committee of New Hampshire educators and placed in each school last fall. This will be of real help to our teachers in making education for safety more effective. Not only is safety on the highway stressed, but also safety in the home and on the playground.

Special reports from the various grades are here included.

The district has again furnished funds which has made it possible to provide hot cocoa for noon lunch for all the grades. Besides the necessary cocoa, sugar, and milk, a small two burner oil stove was purchased at the Village School. The

girls in the group take full responsibility for preparing the cocoa, and the weight charts show many fine gains as a result of this activity.

The children take part in directing the activities of their school, for the development and training it will give them. At the Depot School they are striving for a socialized noon hour, during which the children engage in informal directed conversation, and etiquette examples and suggestions are presented to them in an effort to further good manners.

An outstanding activity at the Center Grammar School is a Current Event period. This is carried out along the lines of an informal discussion, each topic being introduced by some pupil, and the resulting discussion period tends toward a fuller understanding of the events of the day. An oral discussion once a week, of the books read and enjoyed, stimulates interest and creates a desire for reading. This reading for enjoyment is one of the aims of reading as expressed by Dr. Durrell of Boston University.

During National Education Week in November, parents are urged to visit the schools. A large number of parents, especially mothers, avail themselves of this opportunity. We only wish that parents would come more often. If parent and teacher are to work together for the best development of the child, it is very necessary that they have an opportunity to meet.

In conclusion, I wish to express my thanks to the School Board for their generous support and commend the time and energy they have so generously expended for the welfare of the schools. I also commend the effective and loyal work of the teachers in guiding their pupils forward on the road to good citizenship.

Respectfully submitted,

WILLIAM J. NELSON,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

Eva W. Thompson, Music Supervisor

To the Superintendent of Schools:

I herewith present my annual report as Supervisor of Music in the Atkinson Schools.

The work in music is being continued much the same as in former years. The children have an organized course in rote singing, the songs are written within the range of the child's voice, and of simple rhythm. The elements of musical notation are taught step by step; as the children are ready for a problem it is presented to the eye on the blackboard, training the ear and eye for sight reading.

The victrola and radio are used for the teaching of Musical Appreciation. An outline of the program to be presented is written on the blackboard, the teacher tells something of interest about the selection and the composer, before the children listen to the composition.

"Betty Lou" an operetta by Turner and Stults was presented by the students of the Academy on January 27th. The boys and girls did excellent work and the operetta was well received.

For your continued interest and helpfulness, and the hearty cooperation of the teachers, I am most grateful.

Respectfully submitted,

EVA W. THOMPSON.

ANNUAL REPORT OF THE SCHOOL NURSE

Town of Atkinson.

To the Superintendent of Schools:

I herewith submit my annual report, for the year, 1937-1938. I wish to thank the Superintendent of Schools, School Board, and parents, also the members of the Community council, Grange, and Todd Fund, for helping to make the year a success. The report follows:

No. children examined, 82.

No. children underweight, 5; gained since last examination, 3.

No. children defective vision, 4; corrected, since last report, 5.

Defective teeth, 38; dental care, 23.

Enlarged tonsils, 8; tonsil operations, 1.

Enlarged glands, 6; treated, 2; corrected 1.

Other work accomplished:

No. visits to schools, 133.

No visits to homes, follow-up work, 40.

No. business calls, 14; total no. calls, 54.

No. children accompanied to eye clinic, 3; glasses fitted, 3.

No. children accompanied to doctor, 1; exam. of throat.

In April, plans were made to have a dental clinic, to be held in June, at the Library, and a committee appointed. The clinic was most successful, and forty children attended, and had their teeth put in good condition. Many received certificates for complete dental care, and posters and honor rolls were made for each school building. Dr. Russell H. Bethell of Manchester, was the dentist.

Children were weighed several times during the year, and records sent home. Weight charts placed in each school room.

The hot cocoa which is being served each year during the cold months, to the children of the elementary grades, is of great benefit to the children, and marked gains in weight are noted.

During the scarlet fever scare special inspections were held in each school for any evidence of contagion. Children were excluded who were ill or otherwise showed any symptoms.

Cod liver oil was given to children who were underweight.

Applied to Community council for assistance in raising money for a dental clinic. The sum of twenty-five dollars was given by the Todd Fund, which made the clinic possible, and was greatly appreciated.

Respectfully submitted,

HELEN W. THOMPSON, R. N.

School Nurse.
